To Whom It May Concern:

The Town of Readfield is seeking quotes for brush grinding and removal work at our transfer station located on Recycle Road. We are requesting quotes for both clean brush and clean demo wood. We hope to have the work completed within two months of contract signing, but no later than October. Our piles are large but not imposing. We estimate the clean brush to be around 600cy and the clean wood pile is roughly 1/3 the size of the brush pile. A site visit is encouraged but we can also submit photos.

If you are interested in providing these services please submit your estimates by 3:00 p.m. on Friday, May 13th. Quotes can be faxed, mailed in, or emailed to readfield.tmgr@roadrunner.com. In the past we have received modest per ton payment of the clean brush and paid per ton for demo wood removal, plus the cost of transport. That said we understand the market is variable and want to provide the best value to our residents while guaranteeing the removal of these materials.

Thank you for your consideration, and please contact me with any questions.

Sincerely,

Eric Dyer, Town Manager
Town of Readfield
